Wild Amur Velvet

trees form a natural habitat for tigers. They like to rest where it grows and rub their coats against its bark. A tiger can also eat berries from the tree. Amur velvet is rich in vitamins, essential oils, and polysaccharides. They nourish the tiger's coat.

Organic Ginseng

is filled with A, B, and C vitamins and organic acids that moisturise the coat, making it fresh and easy to detangle.

**Organic Rhodiola
