DO AS WILD ANIMALS DO!

Wild Amur Tigers know instinctively what herbs and berries to seek out to make their coats vibrant and beautiful. From observing them, we selected herbs and berries to care for your pet.

«Detangling» controlled
organic spray

for long and medium coats.
Ensures easy and careful
detangling.

We use wild harvested and
organic ingredients:

Wild Amur Velvet

trees form a natural habitat for tigers. They like to rest where it grows and rub their coats against its bark. A tiger can also eat berries from the tree. Amur velvet is rich in vitamins, essential oils, and polysaccharides. They nourish the tiger's coat.

Organic Ginseng

is filled with A, B, and C vitamins and organic acids that moisturise the coat, making it fresh and easy to detangle.

Wild Cedar

recovers hair structure,
ensures easy detangling and
leaves the coats shiny.
