RECYCLABLE PACKAGING

DO AS WILD ANIMALS DO!

Wild Bears know instinctively what herbs
and berries to seek out to make their coats
vibrant and beautiful. From observing
them, we selected herbs and berries to care
for your pet.

«Antistress» controlled organic spray

is a soothing solution
for pets with dry skin.

We use wild harvested and
organic ingredients:

Wild Bearberry

is a bear's favorite delicacy. They like to
hide in its bushes away from insects and
often eat berries at the same time. The
bearberry is full of vitamins and ursolic
acid that restore and soothe skin damaged
by bears during the mating period.

Organic Geranium

has a specific smell. So it can
frighten insects and mosquitoes.

Organic Limonnic Nanai

is a moisturising ingredient
that makes the coat soft and shiny.
