

EN This cream-gel, based on **organic Sophora Khakassia hydrolate**, is quickly absorbed, moisturizes skin and helps to restore the skin's natural balance.

UNIQUE BASE

Hydrolate is a concentrated vitamin and microelement cocktail derived from plants by distillation. Face care products, based on hydrolates, provide intensive skin care, leaving it soft and velvety.

Sophora Khakassia, hand-picked and collected in the wild, contains alkaloids and flavonoids and a high concentration of vitamin P.

Organic Sophora Khakassia hydrolate helps to regulate the lipid balance and minimizes pores. **Organic Cedar oil**, a unique natural source of polyunsaturated acids, vitamins E and F, nourishes and softens skin.

Hyaluronic acid deeply moisturizes skin, increasing its firmness and elasticity. **Vitamin E** is a powerful antioxidant that helps to slow the ageing process of skin.
