

EN This cream, based on **organic Kuril Tea hydrolate**, helps to hide skin imperfections, moisturizes skin and improves complexion.

UNIQUE BASE

Hydrolate is a concentrated vitamin and microelement cocktail derived from plants by distillation. Face care products, based on hydrolates, provide intensive skin care, leaving it soft and velvety.

Kuril Tea, hand-picked and collected in the wild, contains a high concentration of Vitamin C, which perfectly tones and awakens skin's natural radiance.

Organic pine oil, a unique natural source of polyunsaturated acids, vitamins E and F, nourishes and softens skin.

Hyaluronic acid deeply moisturizes skin, increasing its firmness and elasticity.

Vitamin E is a powerful antioxidant that helps to slow the ageing process of skin.

Directions: Apply a small amount of cream to clean, dry skin.
