WILDA SIBERICA

DO AS WILD ANIMALS DO

BE PURE AS AN ARCTIC FOX

CONTROLLED ORGANIC

WHITENING PET CONDITIONER

WILD HERBS

Polar Cloudberry Extract, Wild Blueberry Extract, Organic Snow Cladonia Hydrolate

DO AS WILD ANIMALS DO!

Wild Arctic Foxes know instinctively what herbs and berries to seek out to make their coats vibrant and beautiful. From observing them, we selected herbs and berries to care for your pet.

«Whitening» controlled organic conditioner

for helping to keep white coated animals looking snow-white.

We use wild harvested and organic ingredients:

Polar Cloudberry

is a favorite delicacy of the arctic fox. Cloudberry ripen in September. At this time the arctic fox's coat begins to change colour and as winter arrives it becomes completely white.

Organic acids and vitamin C contained in the cloudberry reduce the production of melanin, so the coat becomes snow-white, fresh and shiny. It is also capable of withstanding temperatures of minus 50 degrees!

Wild Blueberry

as well as cloudberry, contains a lot of vitamin C and possesses antioxidant properties, maintaining the youthful appearance of the skin and coat.

Organic Snow Cladonia

is a moisturising ingredient, that makes the coat soft and shiny.

RECOMMENDED BY VETERINARIANS AND GROOMERS

ECOPETCARE ORGANIC controlled by ECOCERT Greenlife. Standard available on <http://ecopetcare.ecocert.com>.

*10,3 % organic of total. 98,6 % natural origin of total.

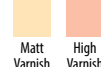

Adaptogens are unique plants that survive from -50°C to +50°C. As a result, they possess rare qualities that are used therapeutically and are renowned to deliver miracle natural skin care benefits and beauty presenting properties.
