## SHED CONTROL PET SHAMPOO

WILD SIBERIAN HERBS

Altai Juniper, Wild Siberian Mint,  
Saponified Cedar Oil

5000ml/ 169, 07 fl. oz

## DO AS WILD ANIMALS DO!

Wild Siberian animals know instinctively what herbs and berries to seek out to make their coats vibrant and beautiful. From observing them, we selected herbs and berries to care for your pet.

«Shed control» controlled organic shampoo for animals suffering from excessive shedding.

We use wild harvested and organic ingredients:

### Altai Juniper

In Siberia wolves like to stand in the juniper thickets. Their coats and skin are nurtured by volatile oils, retinol and amino acids which speed up the renewal and regeneration processes. Pets living in cities have no opportunity to take such "baths". This juniper extract based shampoo will make your pet's coat beautiful and dense.

### Wild Siberian Mint

cools the skin down. It increases the microcirculation of oxygen and nutrients, so the hair roots are nourished, the coat becomes stronger, and its shedding decreases.

Saponified Cedar Oil is a detergent base from natural origin which ensures delicate and safe cleaning.
