DO AS WILD ANIMALS DO!

Wild Siberian animals know instinctively what herbs and berries to seek out to make their coats vibrant and beautiful. From observing them, we selected herbs and berries to care for your pet.

«Oil-plex» controlled organic shampoo for pets with dry and brittle coats that lack shine.

We use wild harvested and organic ingredients:

Siberian Cedar

Squirrels love to eat cedar nuts and bury them in one of several hollows and nests. Sometimes the squirrel forgets about the location of its lair but takes advantage of the reserves of other squirrels, if it stumbles upon them. Cedar nut oil moisturises the skin, restores the structure of the coat and gives it gloss and shine.

Amur Velvet

is rich in vitamins, essential oils, and polysaccharides that nourish the coat and give elasticity to the fur.

Saponified Rosehip Oil

is a detergent base from natural origin which ensures delicate and safe cleaning.
