NATURA SIBERICA Lab Biome

Intelligent cosmetic line, based on the unique postbiotic active and bearberry and angelica root fermented extracts, which adapt to the individual needs of your skin and maintain its immunity.

CREATED BY NATURE
ENHANCED BY SCIENCE

WHAT IS Biome?

Biome plays a positive role in helping to maintain a healthy and glow skin and its barrier and perfectly helps to protect the skin from the negative factors of the urban lifestyle like stress and smog. When your microbiome is balanced, your skin looks and feels healthy.

INGREDIENTS

CRÈME DE JOUR AU RÉTINOL

BIOME BASE: Postbiotic active 1%, Bearberry and Angelica root fermented extracts

All skin types

Anti-age effect

This is your optimal care to maintain the youth and beauty of your skin. The concentrated retinol-based formula has moisturizing, nourishing and rejuvenating effects, giving the skin softness, smoothness, elasticity and reducing the number of wrinkles. "The time machine" for your skin has been found! **Directions:** Apply a small amount in the morning to clean dry skin.

AGE-DEFYING BIOME BASE
Postbiotic active 1%, bearberry and angelica root fermented extracts help to support your skin's microbiome, while maintaining healthy skin, providing an instant feeling of nourishment, and minimizing the appearance of the ageing process.

Vegan retinol 0,1%
Improves skin tone and texture, regenerating and rejuvenating dull-looking complexions.

3X Hyaluronic acid
A triple force for dry skin. Effective moisturizer, prevents appearance of face fine wrinkles.

Ceramides
Maintain moisture, fortify the skin's natural barrier and help protect it against the harmful effects of external environments.
