C+**

Wild volcanic blueberries, growing in harsh conditions, contain a huge amount of valuable antioxidants **anthocyanins**, which accelerate skin renewal processes, improving skin tone and elasticity, restoring a healthy complexion.

Vitamin C starts the renewal processes, prolonging the youthfulness of the skin and restoring its natural healthy glow.

**AHA
acids**

Organic lingonberry and limonnik Nanai extracts contain A.H.A. acids that control sebum production, providing exfoliating action while improving complexion.

These peeling pads gently cleanse skin, block the effect of free radicals, evening out complexion and leaving skin smooth and radiant. **Directions:** wipe a cleansed face with a pad, avoiding the eye area. Turn the pad over and wipe the face again.
