

Natura Siberica designed a new ultra protective line that effectively fights against undesired pollutants.

Our specialists created a unique **Siberian Active Herbal Complex** that combines the gifts of Siberia: organic extracts of sagebrush, chamomile, nettle and organic sage and rosemary oils. It is famous for antibacterial and protective properties.

Together with **Siberian Active Herbal Complex** and **Hyaluronic Acid** this hand soap gently cleanses, leaving skin feeling soft. Optimal antibacterial effect due to 60 sec washing.

DIRECTIONS: Apply a small amount to damp skin, foam and rinse. Wash hands for 60 seconds.
