CRANBERRY – POSSESSES CONSERVATION PROPERTIES

Cranberry and organic cloudberry extracts are sources of AHA-acids and polysaccharides, that effectively renew and rejuvenate skin, make it smooth and velvety. **Complex of four antioxidants** – special mix for skin tone and elasticity, contains vitamins A, E, C and P. Effectively protects skin from negative environmental impact, fills it with vitality and energy.

UNIQUE FACT

Cranberry grows up to 100 years in harsh Taiga climate conditions and accumulates vitamins C, B and PP.

WHAT IS TAIGA SIBERICA?

Taiga Siberica is the most effective cosmetics, based on powerful and wild Taiga plants. We use fresh extracts of herbs and plants, that are rich in beneficial properties, collected by Taiga dwellers. We installed extractors on our organic farms, where extracts are made within 6 hours after gathering – all in order to preserve the maximum beneficial properties of wild plants.
